August, 1977

You work for yourself.
And your family.

Until today, that honest fact meant you may not have been able to enjoy all the benefits of low-cost group hospital protection that's now available to people who work for big companies.

Now you win at last!

Dear Sir:

"It isn't fair," my friend said. "Hard-working self-employed folks like me seem to pay more for our protection than big-company people. Can't you do something about that?"

YES!

Now there's a way to catch up with the kind of benefits big-company people have ... at low group rates! It's called the American Independent Businessman's Group Insurance Trust. And it's designed just for you.

Because you own or operate a business, you qualify for a low-cost, big-benefit group hospital plan offered through the Trust that pays you valuable cash benefits when you are hospitalized for any covered accident or illness.

In fact, I have taken the liberty of sending you your Temporary Membership Card in advance so that just as soon as you have enrolled and your coverage is issued, you can show that you're eligible for big-dollar cash benefits.

So be sure to sign the card and put it in your wallet as soon as you mail your Enrollment Form. Should you need to be hospitalized in the near future, you or your hospital can verify that you are insured by calling the toll-free number on the back of the card. After your coverage has been issued, you will receive a permanent card embossed with your own personal certificate number as well as your name.

The company behind this plan, National Home Life Assurance Company, is a leader in the direct marketing of insurance, and will provide you with these big-dollar hospital cash benefits at the low group rates you deserve! I'd like to tell you four very important things about the plan right off the bat:

1. You collect \$50.00 a day cash, \$1,500.00 a month, from the very first day, when you're hospitalized while under age 65 for any covered accident or illness ... for as long as you're hospitalized even for life! That's money paid directly to you (unless you'd like to have it sent to the hospital or your doctor. You decide.)
2. Your group rates are low because tens of thousands of independent businessmen like yourself have banded together to make it happen. So many more people like yourself enrolled in this plan that the rates are actually lower than they were in 1975! How's that for a change in this day and age!
3. Your enrollment is guaranteed. As an independent businessman, you cannot be turned down.
4. Under a 21-Day Free Examination Privilege, you need send no money now. Examine your Certificate of Coverage for 21 days, then decide. We'll send it to you by mail, so that you can make your own decision without pressure. If you're not 100% satisfied that your Certificate helps you even up your protection with big-company people, you're under no obligation. You haven't lost a cent.

But let's talk about money for a minute. Frankly, you're going to need as much money as you can get when you're in the hospital. And your chances of being hospitalized are pretty good. One out of seven people like yourself will be hospitalized this year according to the Health Insurance Institute. And, as I said, costs are going through the roof. Where will you turn for the money if an accident or illness puts you in the hospital?

Do you have a hospital plan now? Or are you eligible for Medicare? Plans like these are really excellent. Keep them!

But if you think your present hospital plan pays all the bills, you may be in for a surprise.

Many regular hospital plans may not pay for ...

Doctor bills. Medicines. Outside specialists. Diagnostic services. Transfusions. Full maternity expenses. A private room. Ambulance service. Orthopedic aids. Post-hospital nursing care.

That's why you need the extra protection of this supplemental cash plan. ... You deserve a better break.

The costs of getting sick have skyrocketed. The average cost per patient to a community hospital is now more than \$134.00 a day according to the President of the American Hospital Association. That means that 10 days in the hospital could easily run up a bill of \$1,300.00 or more!

And you could get hit hardest of all. There's no big corporation to pay you while you're out sick. No huge big-dollar benefits to pay your bills. It's basically on your back.

UNTIL NOW ...

As an independent businessman, you qualify for this plan and its low group rates, so there will be no delay at all. National Home will have your Certificate and personally embossed Membership Card issued promptly the moment they receive your Enrollment Form.

And National Home makes these three assurances to you ...

1. Your coverage cannot be cancelled because of how many claims you have ... or your age ... or your state of health. So long as you pay your premiums, and the master contract (MP2/MP24) is in force, your coverage is guaranteed.
2. You can never be singled out for a rate increase because of how many claims you have! Your premium can only be increased if rates are changed for everyone in your class insured under this group insurance policy. And as I mentioned before, rates are lower than they were in 1975.
3. You cannot be turned down! As an independent businessman, you automatically qualify for this plan. We guarantee to accept your enrollment form. And there's no unnecessary fuss. No lengthy questions to answer. No waiting period before your coverage begins. You are entitled to low group rates and all the many cash benefits of this plan.

You can also enroll your spouse in this plan -- for the low group rates at his or her own age, and the same cash benefits to which you are entitled.

When you enroll, all of your unmarried, dependent children from one month to age 19 can be covered for 60% of your cash benefits -- in other words, \$30.00 a day. That's \$900.00 a month! One small additional premium covers them all, even if you have enough kids to start your own football team!

Your employees also can enjoy this low-cost group protection. Just indicate on your enrollment form how many additional forms you need. We'll mail them to you, and all correspondence after that will be directed to the insured employee.

If you're 65 or over, this group plan pays in addition to Medicare. During the first three months of any covered hospital stay -- when Medicare is paying you -- you collect \$25.00 a day cash, \$750.00 a month. Starting the fourth month, if you're still hospitalized, you collect the full \$50.00 a day, \$1,500.00 a month ... until you're safely out of the hospital!

These are the exclusions. In order to guarantee acceptance of any independent businessman at reasonable group rates, certain conditions are not covered. You are not covered for conditions caused by: any sickness or injury for which medical advice or treatment was given or for which distinct symptoms were evident during the one year period before the effective date of your coverage. (These conditions are not covered until one year after your coverage is in force.) War or any act of war; the use of narcotics or intoxication; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision. You are not covered for care in a nursing or convalescent facility; or any facility not defined as a hospital in your Certificate.

Send for your Group Certificate. Then decide for yourself.

But send no money now. When you receive your Certificate of Coverage, examine it carefully before you decide one way or the other. National Home believes that if you can run your own business, you can make your own decision without pressure in your own home.

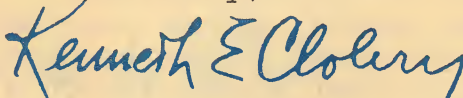

See for yourself that this group coverage is everything I've said it is. If you like it, simply pay the first month's premium within 21 days of the Effective Date shown on your Certificate.

Of course, if you change your mind after you examine your Certificate ... there's nothing more to do.
Your coverage will not go into effect and there'll be absolutely no charge and no obligation for you.

As you can see, it's safe and simple to start your group protection. And it can mean cash benefits to use as you please when you are hospitalized.

But please let me hear from you as soon as possible. Fill out the enclosed form and send it to me right now. Your complete satisfaction is guaranteed ... or you don't pay a cent. You have nothing to lose ... everything to gain!

Sincerely,

KEC:std

K.E.C.

UNTIL NOW, YOU COULDN'T AFFORD TO GET SICK

Days off meant dollars lost, because your paycheck is the one you write *yourself*. Who fills in if *you're* hospitalized? A friend? A relative?

But what if you're out for two weeks? A month? *Six months?*

Unlike people who work for large corporations, you get hurt two ways by going to the hospital:

1. It costs you money. Hospitals and doctors aren't cheap. The Department of Labor says that hospital rates have gone up more than 240% in the past twelve years. Doctor's fees have *gone up* 63% in the same period.

2. It costs you money. When you're not there to work, it costs you money. *Enough said.*

A MODERN INSURANCE PLAN FOR INDEPENDENT PEOPLE

You collect **\$50.00 a day, \$1,500.00 a month**, when under age 65 every day you are hospitalized for any covered illness or injury. And you pay no taxes on the *cash* you get, according to IRS rulings.

Benefits are paid from *the very first day!*

If you are 65 or older, you collect **\$25.00 a day, \$750.00 a month**, for the *first* three months of confinement. (That's when Medicare pays most of its benefits.) Then starting the fourth month, benefits double to **\$50.00 a day, \$1,500.00 a month**.

And you collect it in...

**FREE
21-DAY EXAMINATION.
SEND NO MONEY NOW!**

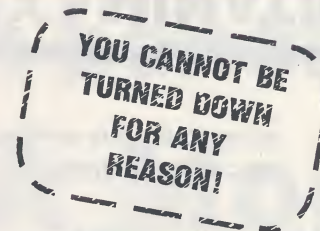

It will pay you to read this folder carefully. Then send for your insurance certificate and examine it in the privacy of your own home. You have 21 days to decide that this coverage is everything we say it is. Remember, you don't pay one cent unless you are completely satisfied.

No salesman will visit you. We believe that its best salesman is the policy itself, because it meets or exceeds your special independent needs. So examine your Certificate of Coverage for 21 days at the Company's risk. If you are not completely satisfied—for *any reason at all*—don't pay the bill and you will not have coverage. There's no obligation whatsoever. And no questions asked.

If the plan makes sense to you, pay the premium within 21 days of the effective date shown on the Certificate. *And if you or an insured family member are hospitalized during the 21-day free inspection period—your certificate is in force. You'll collect up to \$50.00 a day, \$1,500.00 a month, as long as you're hospitalized for any covered accident or illness.*

A.

Any sickness or injury that was medically advised or treated or for which distinct symptoms were evident 1 year prior to the Effective Date of your coverage. (You will not be covered for pre-existing conditions until one year after the Effective Date of your coverage.)

Losses as a result of war or any act of war.

Mental disease or disorder or conditions caused by the use of narcotics or intoxication.

Pregnancy, except as provided under the Maternity Benefit provision.

Confinement in nursing or convalescent facilities. Or any facility not defined as a hospital in your Certificate.

Q.

How does the American Independent Businessman's Group Insurance Trust actually work?

A.

The Trust's purpose is to establish and maintain a fund to provide supplemental health insurance for

automatically?

A.

Yes! As an independent owner or operator, you cannot and will not be refused coverage.

Q.

What about my employees—can they get this low-cost coverage?

A.

Yes. To obtain additional enrollment forms for them, simply designate how many forms you want on your own enrollment form and we'll mail them to you. All correspondence after that will be directed to them at all times.

Q.

Once I enroll, can my premium rate go up?

A.

You cannot be singled out for a rate increase. Your rate can only be changed if rates are changed for everyone in your class insured under this group insurance plan. You can never be singled out for having too many claims or advancing age!

Q.

What if I'm hospitalized, and I collect cash benefits from other insurance companies?

A.

This Plan pays regardless of what others may pay you. That's the beauty of it. No matter what you collect from any other hospitalization or medical program you'll still collect cash benefits from this Plan.
